

INFORMATION FOR PHOTOMACHINING SAMPLE SUBMISSION

PhotoMachining will occasionally perform work on samples for no charge. This usually occurs when we are not sure about the material interaction with our lasers, or in order to demonstrate first order capability. 'Free' samples usually are only meant to demonstrate capability and are generally NOT made to print – we will quote on making parts to print. Sample turn around generally takes one to two weeks depending on the laser and current work load.

If you are planning to submit samples, please fill in this form and send with the samples. **NO SAMPLES WILL BE PROCESSED WITHOUT THIS INFORMATION !!!**
